WHO WE ARE

An integrated logistics city that connects smart warehouses with supporting services within one unified ecosystem.

The Smart Logistics City is the first of its kind in the Western Region, leading the way in delivering innovative logistics solutions through smart warehouses and integrated support services. We provide comprehensive services for commercial and industrial sectors, aiming to create an efficient, secure, and intelligent logistics environment. We believe in the importance of modern technology in enhancing storage and transportation operations. Therefore, we integrate smart robotics systems, advanced surveillance cameras, and integrated inventory management systems to ensure optimal performance.

- Smart warehouses and support services in one location
- Integrated solutions for commercial and industrial sectors
- Integration of robotics, smart cameras, and inventory systems
- An efficient, secure, and future-ready logistics environment

**We don't just provide transportation services...
We manage your entire logistics journey
with the highest level of professionalism.**

The Smart Logistics City

“An integrated logistics environment that brings together smart warehouses, advanced technologies, and support services within one unified system that efficiently and securely supports business growth.”

VISION

To become one of the leading logistics cities in the Kingdom by delivering smart logistics solutions that support growth and development in Saudi Arabia. We strive to enhance efficiency and flexibility in supply chains by applying the latest technologies, helping businesses across various sectors achieve success and excellence.

MISSION

To apply global standards with the highest quality through local expertise, and to become one of the largest logistics service hubs in Saudi Arabia. We are committed to supporting Saudi Vision 2030 by expanding our smart solutions to meet the needs of the local market and the Middle East, while ensuring the highest levels of safety and efficiency.

Features That Strengthen Your Logistics Operations

Fast Shipping Services

Partnerships with DHL, SPL, and Aramex to ensure rapid delivery.

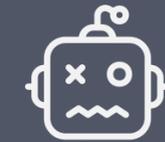

Flexible Storage

Warehouses of various sizes with multiple floors, suitable for both light and heavy goods.

Integrated Security

Advanced surveillance cameras, electronic gates, and smart weighing systems ensuring maximum security.

Smart Technologies

Advanced inventory management systems and modern robotics that improve performance and reduce operational errors.

What Makes the Smart Logistics City Unique

A strong logistics infrastructure supported by real data that reflects warehouse capacity and service efficiency.

Smart Warehouses

7/24 Monitoring

Smart Electronic Gates

Organized Parking Areas

Light Workshops

Advanced Management Systems

WHAT WE OFFER

Smart Warehouses for Lease

We offer smart warehouses with flexible and expandable spaces, designed to meet commercial and industrial needs, supported by advanced infrastructure and control systems.

INTEGRATED LOGISTICS SERVICES

We manage the entire supply chain from planning to final delivery, using data analytics and real-time shipment tracking systems.

Supply Chain Management

Specialized Operational Support

Transportation & Distribution

SUPPORTING SERVICES

Packaging, customs clearance, and express mail services that efficiently support your logistics operations.

OUR ADVANTAGES

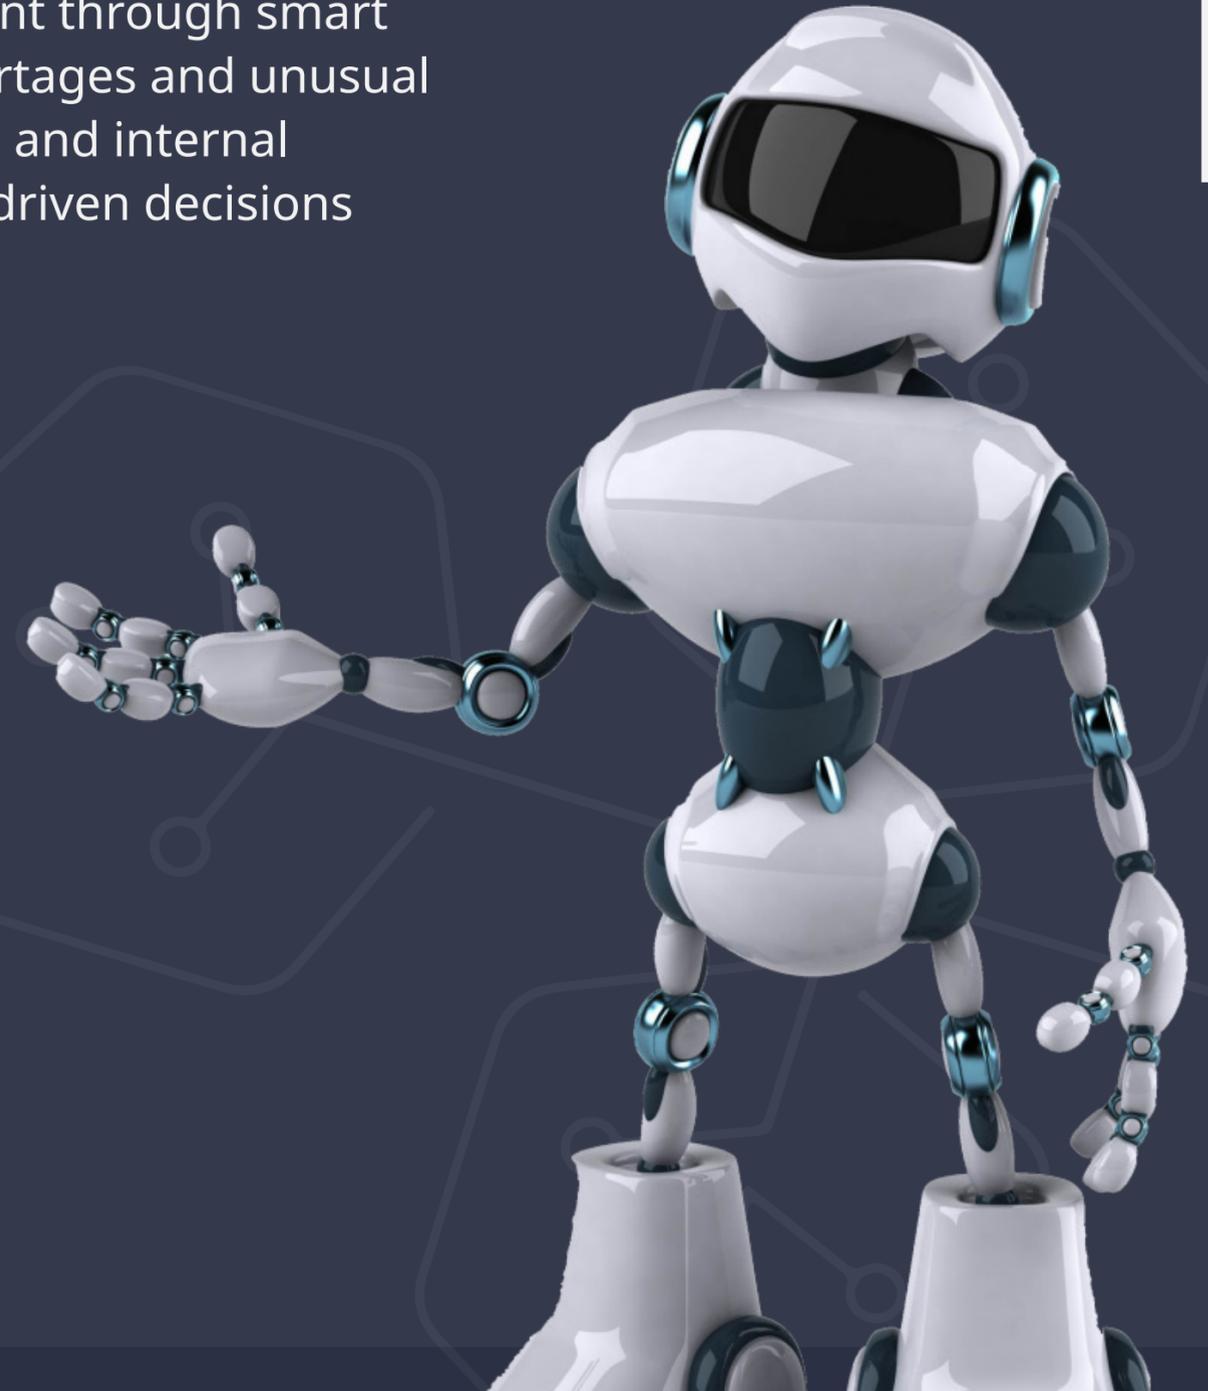

Smart operational technologies that enhance accuracy and streamline operations
We rely on the latest digital systems for warehouse and inventory management through smart platforms that display inventory status in real time, with instant alerts for shortages and unusual movements. We also use robots and automated solutions for picking, sorting, and internal transportation, supported by analytical dashboards that help you make data-driven decisions and significantly reduce operational errors.

- Smart inventory management systems

- Advanced operational robots

- Intelligent performance analytics

- Reduced operational errors

OUR ADVANTAGES

Integrated security to protect your warehouses and inventory data

We implement a comprehensive, 7/24 security system that includes high-definition surveillance cameras, smart electronic entry and exit gates, and advanced weighing systems to match actual weights with system records. We also provide periodic security reports and continuous analyses of protection levels, ensuring a safe storage environment that minimizes risks and safeguards your logistics assets with the highest level of reliability.

- Smart electronic access gates

- Advanced surveillance cameras

- Intelligent weighing system

- Periodic security reports

OUR ADVANTAGES

Flexible storage spaces suitable for all product types

We provide a professional storage system that supports companies and e-commerce stores of all sizes through warehouses with varied capacities, fully equipped to handle both light and heavy products. Inventory is organized according to high professional standards using smart shelving and storage systems, with dedicated floors for different product categories. Accurate inventory management systems track quantities in real time and generate alerts and periodic reports, enabling you to manage your stock with confidence.

- Warehouses with varied storage capacities
- Professional internal organization standards
- Accurate inventory management systems
- Storage floors prepared for all product categories

OUR ADVANTAGES

Fast and reliable shipping services that match your business ambitions

We provide integrated shipping solutions that ensure your customers' orders are delivered quickly and efficiently through a wide network of trusted partners such as Saudi Post (SPL), Aramex, DHL, and other reliable shipping companies. We rely on real-time tracking systems and offer flexible local and international shipping options, supported by a dedicated customer service team that follows up on shipments step by step to ensure a professional delivery experience that strengthens customer loyalty.

- Extensive shipping network
- Flexible shipping solutions
- Fast delivery
- Post-shipment support
